on, for we take no prisoners, no excess ballast, to soar is to achieve with magnificence, unparalleled.

Resonant charm fronting so many hollow places, places that we the managers, fill with new heights. Aaaah, just to partake of the effect, the ascension, is worth the diminishing of balance. Precarious ties, teeter on the outside, perilously so, counterbalance set, in the winning, yet I wonder.

The path, the pitch, so defined. The supervisor, clear and committed. Engaged and admittedly engaging, defines the conquest, paints the finish line, only to move the bar, flow with tireless momentum, no fast lane restrictions to harness such dynamisms.

Infectious, to crave that feeling, to seek such, flatters understatement.

Smart Readers

One smart reader is worth a thousand boneheads.

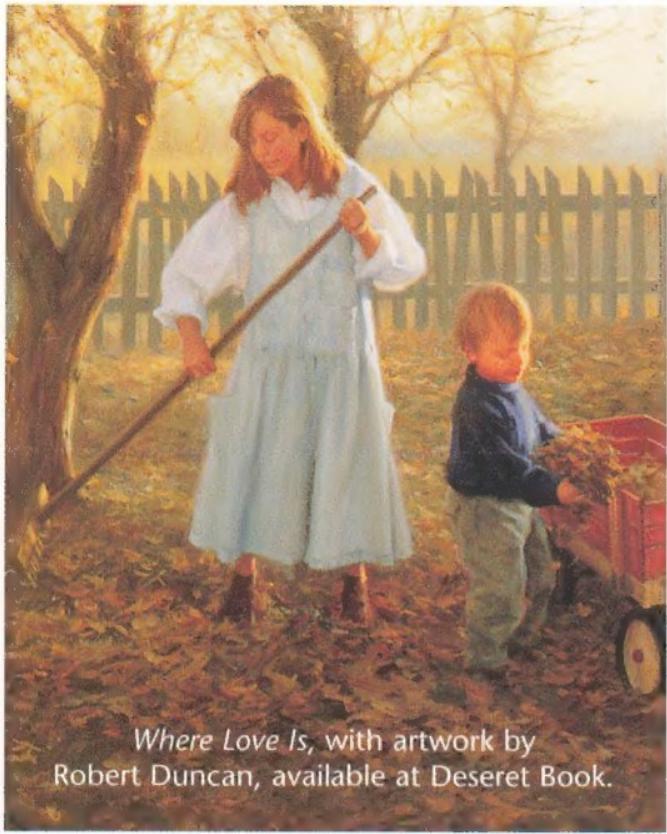

In the valley this 4th of July, you may want to change your plans. This year, Wasatch County matched the amount of money The Midway Boosters donate annually for fireworks. This has allowed the Boosters to purchase much larger fireworks than they have in the past, as well as increase the overall number of fireworks. This year, plan on staying in the valley and watching the fireworks from "The Mountain of Fire." Thanks to Wasatch County and the Midway Boosters, the show will be bigger and better than ever. **v**
